Title VI Note

The Flint Hills Metropolitan Planning Organization (MPO) hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the grounds of race, color, sex, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the MPO receives federal financial assistance. Any person who believes they have been aggrieved by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with the MPO. Any such complaint must be in writing and filed with the MPO's Title VI Coordinator within one hundred and eighty (180) days following the date of the alleged discriminatory occurrence. For more information, or to obtain a Title VI Discriminatory Complaint Form, please see our website at www.FlintHillsMPO.org.

Introduction

What is the TIP?

The Transportation Improvement Program (TIP) is a federally required document and one of many tools used to implement the vision and goals of the long-range transportation plan. The TIP contains all federally funded and/or regionally significant, multimodal, surface transportation projects that are to be implemented in the MPO area during the next four years. The TIP can only contain projects with a committed funding source.

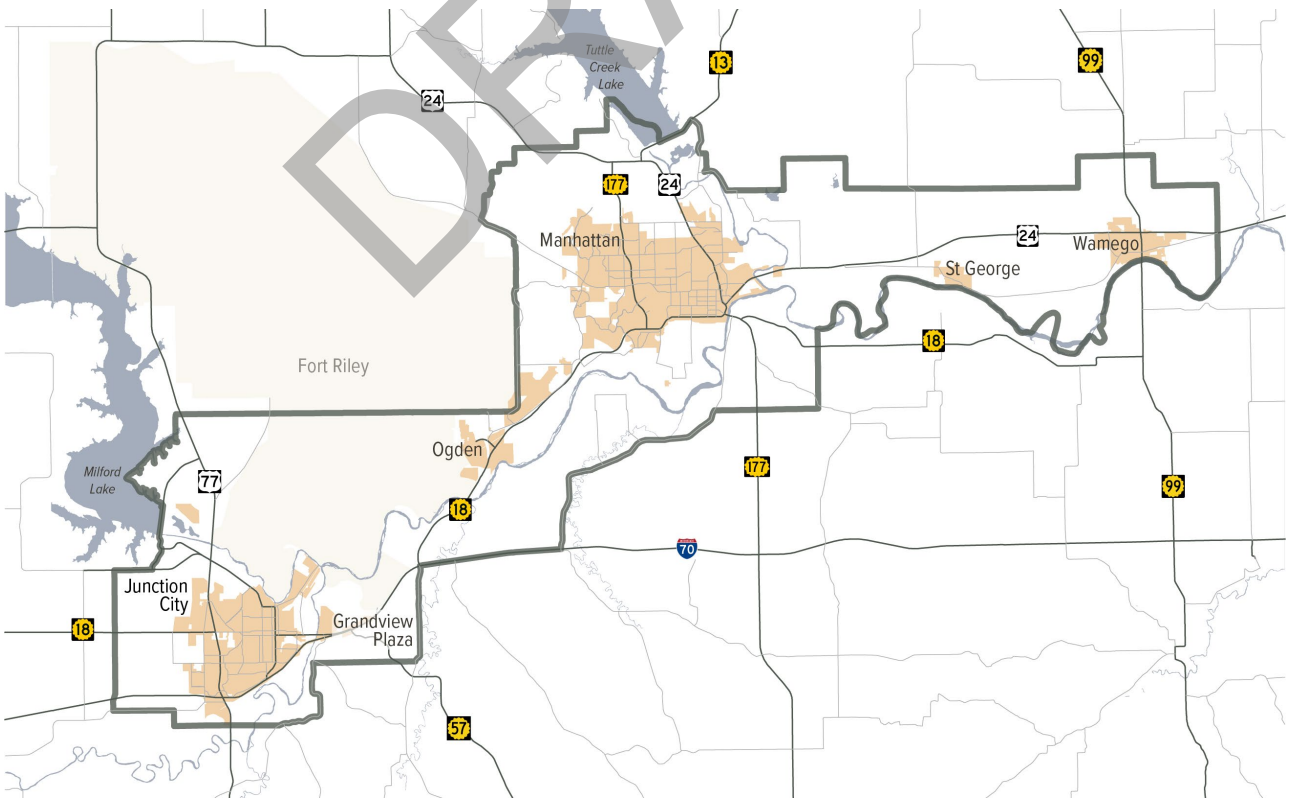

What is the MPO?

The Flint Hills Metropolitan Planning Organization (MPO) is the designated MPO for the Manhattan, Kansas Urbanized Area. The MPO serves a three-county area; consisting of six cities (the Cities of Manhattan, Junction City, Wamego, Ogden, St. George, and Grandview Plaza), portions of three counties (Riley, Pottawatomie, and Geary Counties), and the southern portion of Fort Riley Military Installation.

The MPO is governed by a Policy Board, comprised of local elected officials, and representatives from the Kansas Department of Transportation (KDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA).

TIP Procedures

Process for Including Projects in the TIP

MPO staff will notify project sponsors of opportunities to make additions or changes to the TIP every couple of months. If a project sponsor needs a project added or changed prior to the scheduled TIP amendment, the project sponsor should contact MPO staff.

After MPO staff updates the TIP to include all changes, the document is released for public comment, per the requirements outlined in the ***Public Participation Plan***. If public comments are submitted, MPO staff will present the comments to the Technical Advisory Committee (TAC) for consideration. If changes are made to the draft document, the TIP may have to be advertised for public comment again.

After the public comment period, and any comments are addressed, the draft TIP is reviewed by the TAC and a recommended action is submitted to the Policy Board. The Policy Board then has an opportunity to review the document. After Policy Board approval, the TIP is sent to the Kansas Department of Transportation (KDOT) for approval. Projects in the metropolitan areas' TIPs are included by reference in the Statewide Transportation Improvement Program (STIP), which is the State's equivalent of a state-wide TIP. KDOT sends the STIP to Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) for approval. Approval of the STIP by FHWA and FTA also serves as TIP approval.

DRAFT

TIP Amendments

Amendments to the TIP are processed once every quarter, if needed. Prior to each quarterly amendment, a notice will be sent out to all project sponsors notifying them of the upcoming amendment. The project sponsors will have the opportunity to add, remove, or change a project. The amendment approval process will then follow the same procedures as described in the section above.

Whenever there is an amendment to the TIP, a summary of changes will be provided to highlight the modifications made to the project listing. Detailed procedures for the TIP amendment process and the associated public involvement process for the TIP amendments are outlined in the Public Participation Plan (PPP).

Administrative Modifications

Administrative Modifications are minor revisions to the TIP that do not require public review and comment, or approval from KDOT, FHWA, nor FTA. Revisions that meet any of the following criteria are considered Administrative Modifications:

- Revise a project description without changing the project scope;
- Revise the funding amount listed for projects or project phases at or below the Amendment threshold. Additional funding not requiring an Amendment is limited up to 25% of the total project cost or $5 million (whichever is less), based on the amount programmed in the original approved TIP;

- Decrease project cost;
- Change in source of federal funds;
- Conversion of state funds to federal funds for projects programmed previously as Advanced Construction;
- Change program year of project within the four-year TIP; or
- Split or combine individually listed projects, provided the cost, schedule, and scope remain unchanged.

Fiscal Analysis

Project Funding

Projects in the TIP are funded through various sources of Federal, State, and local funds. Regardless of the funding source, the TIP must be able to demonstrate fiscal constraint. This means there must be adequate local, State, and Federal funds available, or can reasonably be expected to become available, to pay for all projects listed in the TIP.

Fiscal constraint:

Project costs do not exceed anticipated revenues and the region can fund all projects identified in the TIP.

Federal Funding Sources

With the December of 2021 enactment of the Infrastructure Investment and Jobs Act (IIJA), federal funding for transportation was increased and stabilized for fiscal years 2022 through 2026. IIJA funds will be distributed across all sectors of transportation through existing and new programs and grants.

The Surface Transportation Program (STP) funds are distributed to every county in Kansas, as well as to cities with more than 50,000 people in the Census defined Urbanized Area. It should be noted that not all STP funds received by the counties are attributable to projects within the MPO boundary. All three counties have areas outside of the MPO and may elect to use STP funds on projects in those locations.

In addition to STP, there are also several opportunities to apply for other Federal funds; including, Transportation Alternatives (TA), Highway Safety Improvement Program (HSIP), and National Highway Performance Program (NHPP) funds.

Federal funding for transit and paratransit operations will generally be derived from transit urban and rural formula programs from FTA, such as; 5307, 5310 and 5311 funds. These funds are used for capital and operational expenses.

State Funds

The Kansas Department of Transportation (KDOT) is by far the largest financial investor in the MPO region's transportation system. The level of KDOT funding expended in the region varies greatly from year-to-year based on the number of projects, the scope of projects, and award of competitive funding (i.e. Geometric Improvement, City Connecting Link Improvement Program (CCLIP), High Risk Rural Road, etc.). More recently, the State passed a new transportation program, The Eisenhower Legacy Transportation Program, called IKE. The IKE Program introduced several new funding opportunities available to the local jurisdictions.

DRAFT

Local Funds

Transportation investments are typically identified in the City or County's Capital Improvements Program (CIP) for the upcoming fiscal year (except for Geary County, which does not have a formal CIP). The following sources are dedicated to transportation investments for each jurisdiction.

Table 1: Local Revenue Sources

Jurisdiction	Source of Revenue	Average Amount/Year
City of Manhattan	***1/2 cent Sales Tax** (70% earmarked for city debt & costs related to public infrastructure)	$200,000
	1/4 cent Sales Tax for roadway** preservation and SRTS	$2.375 million/year $118,000 for SRTS
Geary County	****Mill Levy** (1 mill is typically set aside for transportation each year, but not a guarantee)	$255,000
Riley County	**^ 1/5 cent Sales Tax** (100% earmarked for Roads and Bridges) **^^ City/County Highway Fund**	$2,685,000 $1,100,000
Pottawatomie County	**^^^ Special Highway Fund** (Any remaining balance from Road & Bridge Fund at end of year is transferred to Special Highway Fund)	$2,790,000

Advance Construction

The State uses a practice known as Advance Construction (AC) to maximize the State's ability to utilize Federal funds while still completing projects in a timely manner. AC allows the State to begin a project in one Federal Fiscal Year (FFY) using State funds, and then be reimbursed for eligible project costs with Federal funds in a later FFY. Once Federal funds are available, the State can be reimbursed with Federal funds. The fiscal year that the State is reimbursed with Federal funds is referred to as the "conversion year". Projects using AC must be identified as doing so, along with the anticipated year of conversion.

Operations and Maintenance (O&M)

Operation and maintenance (O&M) activities are necessary to ensure the safety and efficiency of the existing transportation system. This consists of routine activities such as pothole patching, minor repairs to pavement and curbs, snow removal, striping and marking, mowing, signal repairs, sign replacement, and other minor work tasks. The expense related to this type of work is usually paid for by the local entities that own and operate the roadway. KDOT is responsible for maintaining the major highways running throughout the region.

Demonstration of Fiscal Constraint

Federal regulation requires that the first four years of the TIP be financially constrained. The Funding Summary Table, in ***Appendix A,*** provides realistic costs and funding estimates for TIP projects.

KDOT projects are considered financially constrained when submitted to the MPO staff for addition into the TIP, given the process the state undertakes when identifying statewide projects. The locals are asked to document fiscal constraint when submitting a new project for addition into the TIP or increasing the cost of an existing project if it exceeds the revenue estimate outlined in *Connect 2040,* the long-range transportation plan.

Major Projects

As per federal regulation, MPOs must list any major projects implemented from the previous TIP and identify any projects that experienced significant delays. The following provides a definition of each of the terms:

Roadways Projects (including intersections and bridges)

The major roadway projects implemented from the previous TIP will include projects located on roadways classified by the MPO as a collector or higher, with construction costs of at least $2.0 million and that have at least one of the following attributes:

- Increased roadway capacity or decreased traffic congestion
- Significantly improved safety
- Replaced aging infrastructure or improved to current standards
- Resulted in significant delay and/or detour

Bikeway and Pedestrian Projects

The major bikeway and pedestrian projects implemented from the previous TIP will include projects that meet at least one of the following:

- Total project cost of at least $500,000
- Construction of new bikeway or pedestrian facility (or extension of existing facility) into a location where a bicycle/pedestrian facility did not exist before

Transit Facilities and Service Projects

The major transit projects implemented from the previous TIP will include projects that have a total project cost of at least $1.0 million and meet at least one of the following criteria:

- Acquisition of three or more new transit vehicles
- Addition of new operations and/or maintenance buildings or expansion of existing buildings
- Initiation of new transit service of expansion of existing transit services into territory not previously served by transit

DRAFT

Significant Delay

The MPO defines significant delay as a project that has experienced a delay by two or more years from the year it was initially programmed in the TIP for construction.

Major Projects Implemented

Using the definitions listed above, the following is a list of major projects that were implemented from the 2018-2021 TIP. This includes roadway, bikeway and pedestrian, and transit service projects.

Project #	Project Name	Scope	Construction Year	Total Cost (in 1000s)	Comments
01-2022	Blue Jay Trail	10' multiuse path on the north side of K-18 from Karns Dr to Spring Valley Rd.	2023	$ 1,309.0	Constructed
02-2024	Milling and overlay on K-18 in RL County	Pavement replaced	2023	$ 2,573.5	Constructed
07-2020	Poyntz Ave and Juliette Ave Intersection	Replace traffic signal poles, install ADA ramps, install stamped concrete crosswalks with curb extensions, and count down pedestrian signals	2022	$ 1,070.0	Constructed
08-2022	Intersection of Kimball and Denison (NCC Phase 11)	Roadway expansion & intersection improvements. Previous TIP# 0-25-2014. GO Bonds funding	2024	$ 10,900.0	Under Construction
10-2020	K-18 heavy preservation near K-177	Pavement replaced	2023	$ 4,092.7	Constructed
10-2022	N. Manhattan Ave, Campus Creek, & Bayberry Infrastructure Improvements	Upgrade flashing yellow beacons to full traffic signals for pedestrians. Construct two-way bike lane on west side with barrier to Vattier. Realign Campus Creek road with Bertrand & adding roundabout on campus	2023	$ 3,000.0	Constructed
12-2022	Kimball Ave Roundabout Replacement	Replace Roundabout, sidewalk improvments, pavement rehab	2023	$ 3,300.0	Constructed
13-2022	Patching on I-70 east of K-57	Patching and resealing joints	2024	$ 4,527.0	Constructed
14a-2020	Roundabout at US-24 & K-13	Construct single-lane roundabout at intersection to improve safety.	2025	$ 7,730.8	Under Construction
14b-2020	Roundabout at US-24 & K-113	Construct single-lane roundabout at intersection to improve safety.	2025	$ 6,063.5	Under Construction
16-2024	Anderson Ave Reconstruction: Wreath to K113	Reconstruct the roadway and driveways	2025	$ 2,000.0	Constructed
17-2020	Juliette Ave - Phase IV	Brick Rehab on Juliette. Address storm sewer issues. Create curb extensions at intersection of Pierre	2025	$ 1,537.4	Under Construction
24-2020	Kimball Ave: College to Denison (NCC Phase IX) Cost Share	Widen existing to 5-lane with paved median for access control & dedicated left turn lane. New traffic signal at Kimball/Grain Science entrance. 1/2 mi of new MUP	2023	$ 6,440.5	Constructed
24-2022	Increasing the Walkability/Bikeability of St. George	Installation of sidewalk along 1st & Chapman Rd, downtown curb extensions, and pedestrian crossing	2025	$ 1,532.5	Under Construction
25-2020	I-70 and K-18 Interchange	Install new EB auxillary lane from Henry Gate to Exit 313. Install fly over ramp from EB I-70 to NB K-18. Alter turn ramp from SB K-18 to WB I-70	2025-2027	$ 16,057.4	Under Construction
27-2020	I-70 Pavement Replacement	Pavement Replacement beginning 1 mile east of US-77/I-70 then East to East City Limits of Grandview Plaza.	2023-2025	$ 32,026.0	Under Construction
T2-2024	FHATA Building and Improvement Project	Building expansion & improvement. Parking lot expansion	2024	$ 1,000.0	Constructed

Breakdown of Funding by Project Type

The projects included in the TIP are grouped into one of eight categories based on project type. Below are the categories as well as a brief description of each.

Roadway Expansion: Increasing capacity of the roadway by adding travel lanes;
Roadway Preservation: Maintaining the existing roadways and bridges (mill and overlay, brick street rehabilitation, resurfacing, etc);
Modernization: Improving an existing roadway to make it more functional or accommodate other modes of transportation
Safety/Intersection: Projects that improve the safety of intersections and roadways, including geometric improvement projects, restriping, rumble strips, adding turn lanes or shoulders, etc.;
Bicycle/Pedestrian: Projects adding or improving bicycle or pedestrian infrastructure and accommodations, including multi-use paths, bike lanes, pedestrian signals, etc.;
Transit: Paratransit and transit activities (operating and capital purchases);
Planning/PE: Studies or professional engineering programmed for a project; and
Sustainability/EV: Projects that install electric vehicle (EV) chargers or infrastructure, or other sustainable projects including carbon reduction and green infrastructure.

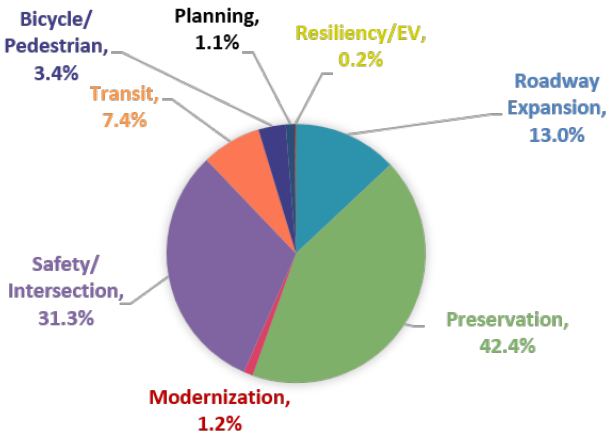

The "Funding Amount" shown in ***Table 2*** takes into account the total project cost from all years and phases of the projects included in ***Appendix E*** even those outside of the TIP timeframe.

Mission and Goals

The mission of the Flint Hills MPO is to "Provide a regional forum to coordinate, encourage, and promote a safe, efficient, affordable, and integrated transportation system for all users; in support of livable communities and economic competitiveness." To accomplish this, the MPO established four goals within the long-range plan, which serve as the foundation for the transportation planning process and project selection.

SAFETY
Provide a safe and secure multi-modal transportation system.

MOBILITY
Maintain system performance and enhance modal choice for the efficient movement of people, goods, and freight.

PRESERVATION
Invest in the preservation and maintenance of our existing transportation infrastructure and assets.

PROSPERITY
Create an equitable, affordable, sustainable, and integrated transportation system for all users.

Performance Management and Targets

To track the progress being made on achieving the goals outlined above, performance measures (PMs) and targets have been developed. The PMs and targets are housed in the ***Metrics for Progress*** document. The tables below identify the projects contained within the TIP that will help to maintain or meet our target for various performance measures.

* Anticipated Funding is calculated using the Local Fund Sources (Table 1) for the previous 5 years. It should be noted, the actual funds spent (in previous TIPs) is generally far greater, but includes general funds, grants, and other non-transporation dedicated funds.

Appendix B: TIP Project Listing Information

The projects listed in the TIP are broken down into four categories: Road and Bridge; Bicycle and Pedestrian; Transit and Para-tranist; and Railroad. Below is a sample project from the TIP to aid in explaining each field of the form.

Decoding the TIP

X-XX-202X The first digit identifies the most recent amendment to the make changes to the project. A "0" means the project has not been modified since the original TIP document. Now also found in "**TIP Entered**" & "**TIP Last Revised**" sections.

X-**XX**-202X The second set of digits is the project number. This number never changes.

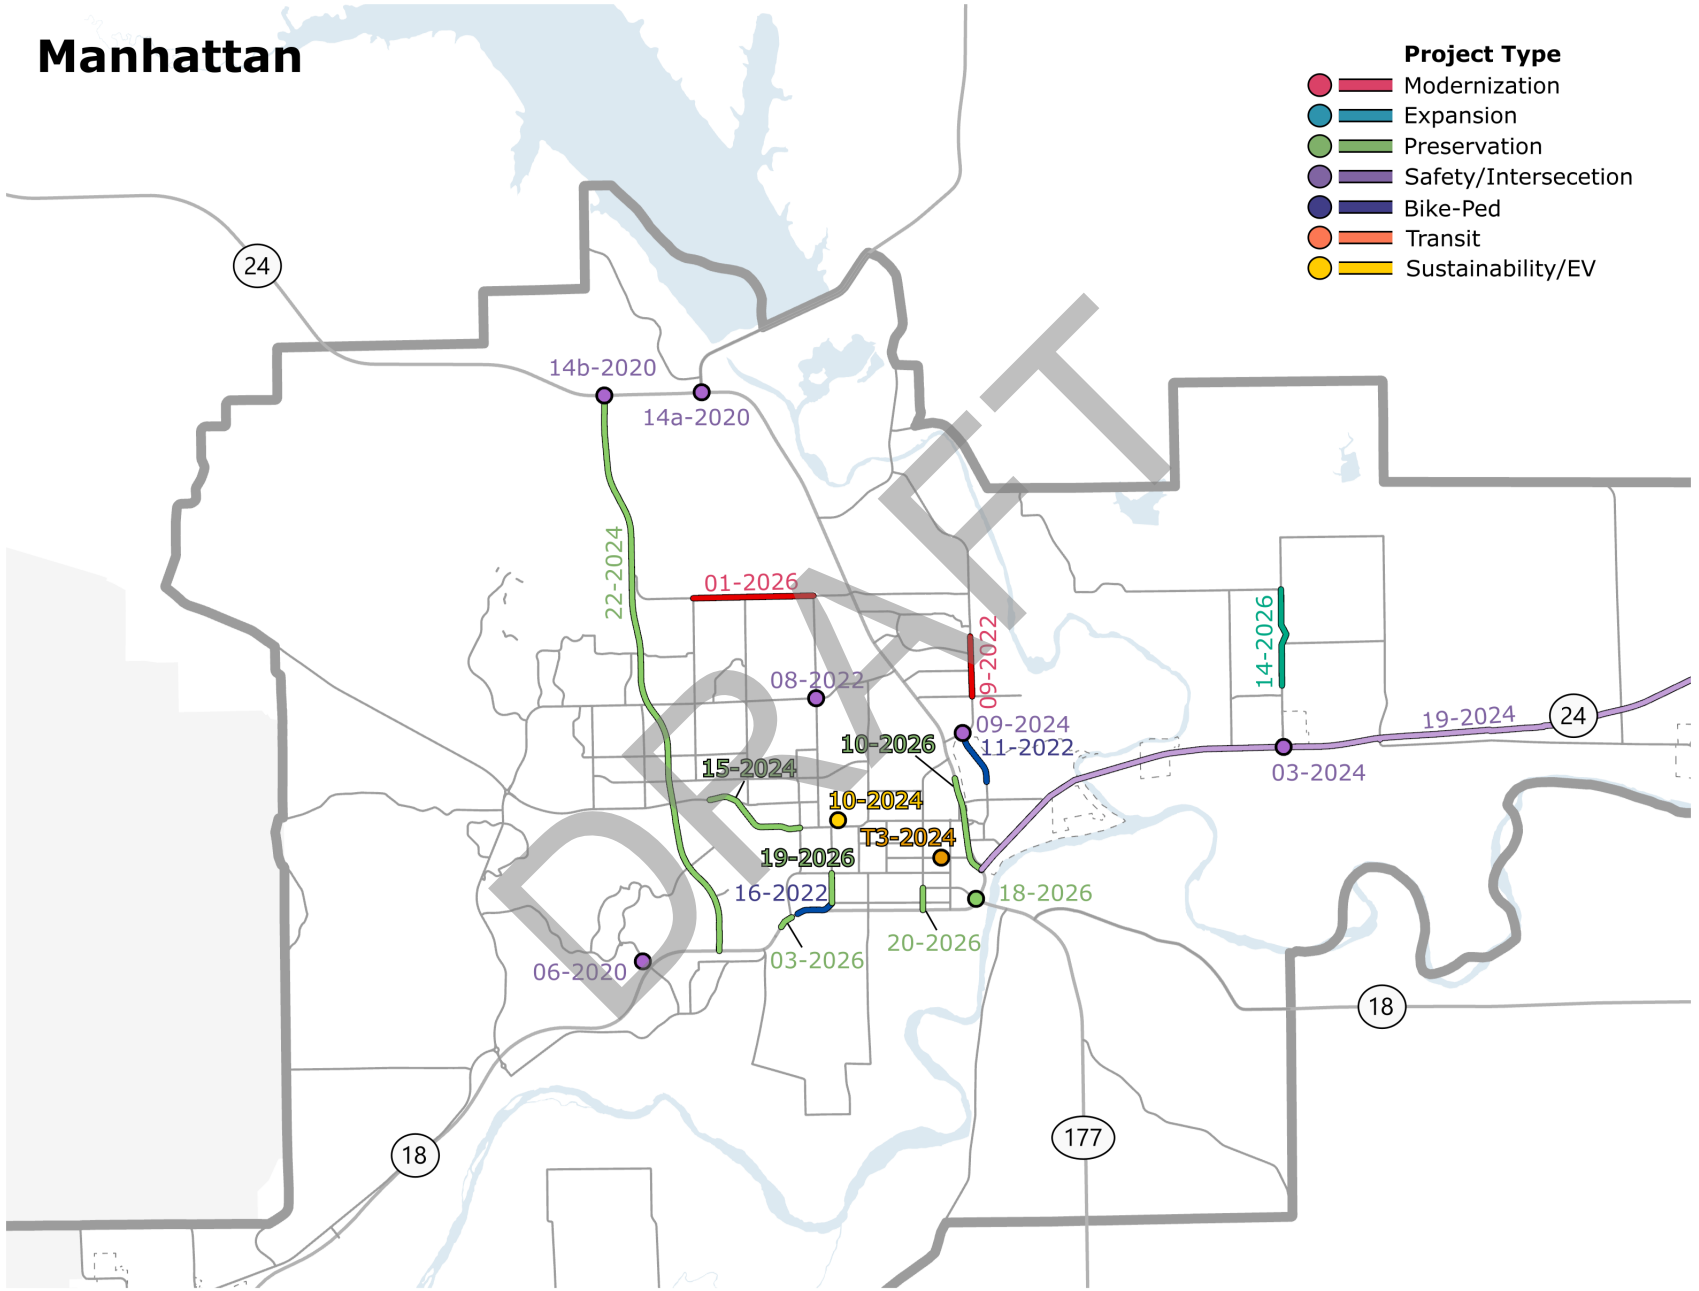

X-XX-**202X** The last set of digits indicates the year the project was first programmed in the TIP. The TIP is updated in even years (i.e. 2020, 2022, 2024).
